

Starter set PXT

Starter set of up to 75 parts

Starter set PXT

Design

- Consisting of more than 50 parts
- Including 4 or 6 vacuum suction cups SPB1-50
- Profiles, joints, holders and connections for the construction of grippers with single or double main beam
- Basic ejector SBP-HV for powerful and energy-efficient vacuum generation

Modular gripper system PXT handling a glass pane

Designation code Starter set PXT

Suitability for industry specific applications

Applications

- Complete starter set in a modular system with the option of adding further components from the PXT portfolio
- Use in confined spaces due to low interference contours and internal vacuum guide (optional).
- Use for parts removal from tools and machines

Product highlights

- Simple and quick assembly with few tools
- Quickly adaptable to new workpieces
- Flexibly expandable with additional PXT components from the modular system
- Low overall height for use in confined spaces
- Flange feeder for flexible connection to common lightweight robots

Starter set PXT

Starter set of up to 75 parts

1 – Abbreviated designation

Code	Version
PXT	PXT

2 – Variant

Code	Type
STARTERKIT	Starter set
